Objective:

Ambitious Management Information Systems graduate (2025) seeking an entry-level position in **Data Analysis, Business Intelligence, or Business Systems** where I can leverage my expertise in Power BI, Excel modeling, SQL, and data visualization to transform complex data into actionable insights. Eager to contribute to operational efficiency, process optimization, and data-driven decision-making while supporting organizational growth and system performance.

Education:

Bachelor's Degree in **Management Information Systems**, Prince Sattam bin Abdulaziz University – Saudi Arabia. Graduated: 2025

Experiences:

Operations Quality Specialist Trainee (Tamheer Program)

Monsha'at – Saudi Arabia, Riyadh | Mar 2026 – Aug 2026

- Updated and monitored quarterly **KPI reports and project expenditure plans**, tracking project completion, spending, progress, and resource utilization.
- Reviewed project requests and change requests**, coordinating with project managers to address issues and provide recommendations and corrective actions.
- Developed Excel-based **KPI tracking sheets** to monitor data completion, identify missing indicators, and track follow-up actions.
- Prepared weekly Operations Quality Reports** covering project priorities, departmental KPIs, challenges, expenditure plans, and project status.
- Analyzed project performance and satisfaction survey data**, creating comparisons and visualizations to identify trends, performance gaps, and improvement opportunities.
- Verified project completion, procurement, and change requests for data accuracy, financial information, and compliance with requirements.

Operations Intern

Marbs – Saudi Arabia, Riyadh | Jan 2025 – May 2025

- Engineered an advanced Excel performance model to strengthen accuracy and reduce reporting errors.
- Built interactive Power BI dashboards to streamline reporting and support executive decisions.
- Analyzed and structured operational data to enhance workflow efficiency and reduce task duplication.
- Delivered actionable insights through **Data Analysis, Performance Reporting, Process Optimization**, and **Business Intelligence**.

Projects:

1. Employee Performance Dashboard (Power BI)

- Built an interactive KPI dashboard to evaluate employee productivity and departmental performance.
- Applied DAX functions and data cleaning techniques to enhance reporting accuracy.

Tools: Power BI, DAX, Data Visualization, Data Cleaning

2. Student Information System (Database Project)

- Designed and implemented a relational database system to manage student records.
- Created ERD diagrams, table relationships, and SQL queries for reporting.

Tools: SQL, Database Design, ERD Modeling

3. Sales Data Analysis (Excel & Power BI)

- Conducted exploratory data analysis to identify sales trends and performance gaps.
- Developed dynamic dashboards and automated reports.

Tools: Excel (Pivot Tables, Advanced Formulas), Power BI

Professional Development:

Courses & Certificates:

- Fundamentals of Artificial Intelligence** – SAMAI (Feb 2026)
- Artificial Intelligence Concepts & Advanced Applications** – SAMAI (Feb 2026)
- Introduction to Data Analysis** – SAT (Feb 2026)
- General English (B1 – Intermediate)** – LAL Cape Town (Jan 2026)
- Power BI for Business** – Tuwaiq Academy (Feb 2025)
- Cybersecurity** – Doroob (Nov 2024)

Skills:

Hard skills:	Soft skills:
- Data Analysis & Business Intelligence - Database Management - ERP & Business Systems - MS Office Suite (Word, Excel, PowerPoint) - Project & Process Management	- Communication Skills - Problem Solving - Team Collaboration - Adaptability - Time Management

Languages:

. Arabic . English
